## **Yr7 Term 5**

### **Revision Resources!**

This is the time where your attention turns to your end of year exams!

Using the revision guides on the website, you should build your own revision resources to help you revise.

Everybody is different when it comes to revision, so there is not really one way to go about revising. Our suggestion as an RE department is that you look at what you need to know for the end of year exams and then start creating flashcards, lists or mindmaps with the relevant information on them.

You can then use these to read the information and commit it to memory and you could also ask a friend or family member to test you on what information is on the cards.

Finally, another good revision tip is to look at some past explanation and evaluation questions you have done this year and re-do them perfectly! This will help you to perfect the style and format of writing certain answers.

Good luck and happy revising!

## **Yr7 Term 6**

### **Free choice**

You can decide on your project for this half term.

What would you like to explore about religion? You could look into famous people and their religions, you could explore differences between religions, you could even find out about atheism and humanism.

You decide! In the last week of lessons at school, you will present your findings to the class in any way that you want to – poster, leaflet, presentation, blog, vlog...anyway you want!

Good luck!
